REV. DR. DAVIES CONSECRATED.

Worcester, Mass., Oct. 18.—The Rev. Dr. Thomas Frederick Davies, Jr., for eight years pastor of All Saints church in St. Louis, presided and assisted, at Bishop Lawrence of Massachusetts and Bishop Brewster of Connecticut. Bishop Burgess of Long Island presided the sermon and Bishop Johnson of Los Angeles and Williams of Michigan were the principal speakers in the complete ritualistic ceremony of the church was carried out in the consecration.

NEW MASONIC TEMPLE DEDICATED.

Houghton, Mich., Oct. 18.—The magnificent Masonic Temple recently completed in this city was dedicated in "due form" today, the ceremonies being more elaborate and imposing than any before seen here. The principal services were conducted with flags and Masonic emblems and hundreds of members of the fraternity representing services were conducted by the Grand Lodge officers in accordance with the Masonic ritual. The exercises were followed by a public reception and inspection of the new edifice.

BROTHERHOOD OF ST. ANDREW.

Halifax, N.S., Oct. 18.—More than a thousand delegates, leaders in the protestant Episcopal church of the United States and Canada, and many of them high standing business and professional, gathered in this city to take part in the annual convention of the brotherhood of St. Andrew. The meeting opened four days and will have as speakers Rev. Wilson H. Stealy of Hopkins College, Rev. Canon Powell, rector of King's college, Windsor, Ontario, and a number of other clergy-men and educators of wide reputation.

CITY OF EDMONTON HEALTH DEPARTMENT

Scaled tenders will be received by the board of commissioners for supply of milk to the Isolation Hospital for one year.
Tenders will be opened the 21st inst. when sealed tenders will be received. Particulars of conditions may be obtained from the Medical Officer of Health.
THE CITY COMMISSIONERS.

MURDER TRIAL IN SUPREME COURT

Shamrock Valley Man Is Charged with Slaying Friend in September Last—Temporary Insanity Plea of the Defense—Several Witnesses Are Examined

As the outcome of a quarrel which took place on September 11, in the Shamrock valley country, sixty miles north of Vermilion, in which Milo Bankes and James Atkinson, two half brothers of the district, were killed, and in the course of which Bankes was shot through the head, Atkinson is on trial in the supreme court for the murder of his cousin. The case opened at 11 o'clock yesterday before Mr. Justice Stuart, and will all probability take up three days of the time of the court.

According to the outline of the case as made by E. B. Gossnell to the jury this morning and the evidence produced on court, Bankes and a number of other parties, were the guests of the accused on the morning of the alleged murder. The victim of the shooting attack and the accused spent the morning at an impromptu shooting on the farm of the accused, in the terms which, later in the day, in company with E. B. Gossnell, the principal crown witness, they gathered in a tent close to Orange House, and there Bankes and the accused were seen to have been drinking. Bankes was pushed into a tent which lay in the tent. Bankes grew angry, and then Bankes, who was standing upon his head, striking him in the eye and falling him, Atkinson, who had been drinking, picked up a bottle and threw it at Bankes, who was on the ground again. The accused then rushed into his house. Bankes, who was standing upon his head, striking him in the eye and falling him, Atkinson, who had been drinking, picked up a bottle and threw it at Bankes, who was on the ground again. The accused then rushed into his house.

William McKinnon, Noble of Shamrock Valley, said he knew both the accused and the Saviours. He gave evidence mainly corroborative of that of his wife. He had known Atkinson for some time and his reputation was good. Evidence was given by Henry Stanley Monk, M.P., who made an examination of the corpse of Bankes. "My opinion is," he said, "that he died from a haemorrhage. The face was pierced through the forehead and back. Some of the bones had been shattered." Cross-examined he said that the kidneys of the deceased were considerably congested. Conjection of the kidneys might cause death. His opinion was, however, that in this instance it was not the responsible cause.

Constable J. Calver of the R.N.W.M.P. examined the tent in which Bankes had been when the shooting occurred. There were two holes in the cloth about five feet from the ground. He arrested the accused at 11.15 on the evening of September 12. Atkinson came away peacefully. Cross-examined, witness said the holes in the tent were both perfectly similar. The canvas was slightly charred around the holes and in the tent hole to be found.

H. H. Robertson asked to be allowed to introduce expert testimony to prove the effect of the blow which Atkinson received upon the accused's mentality. His lordship: "I think the jury is quite competent to judge of the psychological effects of a blow of this kind as any experts would be."

Mr. Robertson, however, asked permission to introduce the testimony of experts during the course of the trial. August Froelich, a half breed, gave evidence through an interpreter. He lived, he said, ten miles distant from Atkinson's place.

"The man who was killed was the man who started the trouble," said the witness, during the course of a somewhat incoherent statement as to the quarrel between Bankes and Atkinson, at which witness had been present.

GOV. POTTER FOR ANOTHER TERM.
Providence, R. I., Oct. 18.—The Republican state convention met in its infancy last night with Congressman George H. Potter presiding. As they were no contests for places on the state ticket the work of the convention was speedily accomplished. Governor James W. Williams and other leading state officials were likewise renominated. The platform declares in favor of reciprocity and the principle of protection as enunciated in the last national platform of the Republican party. As regards state issues most emphasis is placed on the necessity of the revision.

Now close to his eightieth year, John P. St. John, who was the prohibition candidate for president in 1880, is spending the evening of his life in quiet retirement at his home in Clatskanie, Ore.

Arthur Morton said that he had been

living at Mr. Savard's farm, in the vicinity for some time. On the evening of September 11, Bankes came over to the house in a hostile condition. He made a sign with his hand which witness took to mean "don't speak". Bankes then came into the house, and Bankes died at 5.10 that afternoon, in a chair at the Savard home.

Mrs. Annanah Jane Noble was the next witness called. She deposed to the quarrel between Mr. Atkinson and the Saviours. She visited her house and brought her over to see Bankes at Savard's house. Bankes was bleeding freely when she arrived on the scene. She spoke to him but he failed to reply. The next thing she saw was that he was dead. Her acquaintance with Bankes was of about a month's duration. Atkinson shot him down since February. His general reputation was good.

William McKinnon, Noble of Shamrock Valley, said he knew both the accused and the Saviours. He gave evidence mainly corroborative of that of his wife. He had known Atkinson for some time and his reputation was good.

Evidence was given by Henry Stanley Monk, M.P., who made an examination of the corpse of Bankes. "My opinion is," he said, "that he died from a haemorrhage. THREE CASES IN SUPREME COURT

WILL BE TRIED DURING THE PRESENT SESSION—FIVE JURY CASES ON LIST

Thirteen prisoners who must come up for trial before Mr. Justice Stuart during the session of the supreme court, which opened at 10 o'clock yesterday, were arraigned before his lordship and pleaded not guilty to the various charges preferred against them. One case has been left over until the next court, and the accused who was out on bail has de- camped and his bondsmen this morning forfeited their money. A charge of criminal libel preferred against the proprietor of a newspaper of the district, has been withdrawn. Five of the cases when come up for trial will be heard by his lordship and a jury.

A mutual incident occurred shortly after the opening of court this morning, while the prisoners were being arraigned. After reading the charge preferred against Frank Van Gannet, the deputy revenue officer of Leaman, who is alleged to have shot Edward Hurlbut in the polling booth on the evening of Sept. 21, the clerk turned to the accused with the usual question, "Are you guilty or not?"

Van Gannet hesitated. He looked confused. After a moment's consideration he replied, "Yes, I'm guilty of manslaughter."

Then his counsel interposed. He pleaded not guilty, your lordship," said H. H. Robertson. "My client does not understand the question. He thinks he is charged with murder."

Van Gannet will come up for trial before a jury at the conclusion of the murder trial now proceeding.

No fewer than three settlers of Lamont and the surrounding district are charged with responsibility for the death of their children or children under their care through failure to call in all of a medical man during the children's illness.

John Dembrowski, of Lamont, was charged with separate charges. He was charged with neglecting to call in the help of a doctor when his sixteen-month-old child was in a dangerous condition and it was alleged that the boy died in consequence of this neglect. Dembrowski was charged with neglecting to call in the help of a doctor when his sixteen-month-old child was in a dangerous condition and it was alleged that the boy died in consequence of this neglect.

A charge of neglect was also preferred against George Melnick, a judgment imputing to the accused responsibility for the death of his daughter, who was aged 29 of the present year. John Zibley was charged with causing the death of his son Peter and his daughter Marjorie through failure to call in the assistance of a doctor, and of similar neglect in respect to a son, Zachary Babik, who had been staying at the home of the accused. Melnick elected to be tried before a jury. Zibley will be a non-jury case. H. H. Robertson is counsel for both prisoners.

The case of Rex vs. Walter L. Hall, the accused is charged with an indictable offense. He will be tried by a jury. Rex vs. P. Williams, charged with the commission of the crime, and one of attempt.

Other cases are as follows: Rex vs. John Stobolton, charged with an indictable offense against a girl, Rex vs. John Stobolton, charged with an indictable offense against a girl, Rex vs. John Stobolton, charged with an indictable offense against a girl.

Rex vs. John Stobolton, charged with an indictable offense against a girl, Rex vs. John Stobolton, charged with an indictable offense against a girl, Rex vs. John Stobolton, charged with an indictable offense against a girl.

is operated from the exhaust and a large alarm bell attached at the rear of the engine body, in front of the driver's seat. There are two chemical extinguishers, one on each side of the car which contain sufficient chemical to extinguish an ordinary fire before the horse-drawn sections of the fire brigade could arrive on the scene. There are seats for four men, but four more can safely ride on the car by doubling up in the rear seat and standing on the running board.

It will be used by the chief when ever he has to get to a fire in a hurry. Three or four of the best firemen with necessary tools to use the chemical apparatus on their arrival at the scene of the conflagration and to prepare for the removal of the horses if necessary. The car will be equipped with non-skid tires and all other appliances to assist in traversing over crust or muddy roads in the outskirts of the town.

The next piece of motor equipment for the Edmonton fire department will be a motor chemical engine to take the place of the horse-drawn chemicals now in use.

INDIANA RED MEN IN SESSION

(Union Press Service.)
Indianapolis, Ind., Oct. 18.—The Indiana Grand Council of Red Men opened its annual session here today at Tenthon Hall, with a large attendance of delegates representing the lodges in nearly all sections of the state.

One of the most important questions which will come up for consideration during the two days of the session will be the proposed erection of a state headquarters building of the order in this city.

ARMY OF THE CUMBERLAND

Chattanooga, Tenn., Oct. 18.—The thirty-ninth annual reunion of the society of the Cumberland began here today, with headquarters at the Hotel Patten. Features of the opening session, which closed yesterday, were a welcome by H. Clay Evans and a response by Gen. Gates P. Thurston, president of the society. This afternoon the members visited the neighboring battlefields. The reunion will conclude today by a camp fire meeting tomorrow night.

ACROSS THE SASKATCHEWAN
Manley Contract Is Again Discussed by Strathcona Council

Waterworks Superintendent Declares Sewer Pipe Is Not Being Laid Properly—Paving Company Offers Council Free Trip to Winnipeg—Many Petitions

Strathcona, Oct. 18.—Hopes that the signing of a new agreement between the city and the Manley Construction company, regarding the contract field by the company for the extension of sewer and water lines this season, would prevent any more troubles arising out of the transaction were shattered at last night's council session when Waterworks Superintendent Turner made a strong protest against the manner in which sewer pipe is being laid on certain portions of the work now under construction in the main parts of town. Mr. Turner charged that this work was being carried on in a very slipshod fashion by one employee of the company and he refused to stand responsible for any defects that might appear in the system during years to come. Mr. Turner took the opportunity while speaking to the council to point out that the attitude of the company to point out that the attitude of the city officials for easy marks. When questioned closely by Alderman Richards the superintendent explained that the employee of the company-laying line on certain extensions he considered entirely incompetent. He claimed that some of the lines are laid in before inspection is made by the city official in charge. As it transpired none of the members of the council were present and Mr. Turner was unsupported in his charges. Engineer McLean stated that he had been assured by the city's inspector on the work in question that everything was satisfactory. However, this inspector was not present to answer the charges of Mr. Turner.

Alderman Richards and Galder were taking prompt action upon the complaints. The latter was in favor of digging up portions of the piping covered and see if proper construction had been made. "It strikes me that the council have been made a fool of in this whole business," said Alderman Richards. "If the Manley company are doing faulty work they should be made to pay for it. I was in favor of taking over this contract some time ago. We will probably have a lawsuit over it if we don't see to it now. There is something wrong somewhere if these people are allowed to do poor work. There's too much at stake to allow any one to take to be made at this time. The lives of residents may be endangered in years to come if these people are not put in according to requirements." Mr. Turner admitted that the Mill Creek work is now quite satisfactory. The mayor said it was the first indication that he had received of faulty work and he would like to see the matter discussed in committee before any hasty action was taken. It was agreed that the trouble should be taken up Wednesday morning, this employee under criticism being ordered to the

Waterworks Superintendent declared sewer pipe is not being laid properly. Paving company offers council free trip to Winnipeg. Many petitions.

It was variety night at the council and a multitude of matters were much discussed. Only a question appeared to transcend the business, those present being Mayor Davies, Alderman Richards, Hunkin, Loughlin and Galder. In contrast to the empty abeyance of the speaker's chairs were all filled, the audience being the largest for some session.

In the correspondence, council was urged to send a representative to the convention of Alberta Municipalities at Medicine Hat October 26 and 27. Letter was sent.

Want a Sidewalk.

Two petitions for four-foot public walks were referred to the public works committee. A request for an extension of the electric light system to Thirteenth avenue south on Fifth street east, was turned over to the fire light committee.

Item A. G. Butterfield asked for the closing of the old road across the river opposite River, lot 18 upon which his department had secured a permit to remove gravel. He moved that fences be secured for loading on this gravel and placing in piles before winter sets in. This was carried.

New steps will be built on First street west leading down the hill to Waterdale to replace the old ones placed there in 1907. The motion of Alderman Richards in this effect included a suggestion that stairs be placed on Main street to give better entrance to Riverside Park, carried.

The question of opening University street west from Whyte to University avenue was referred to the public works committee for a report.

A report from the medical health officer stated that eight cases of measles and one of diphtheria were at present in the city.

Upon report from the mayor it was decided that the Warship and the public works committee be empowered to arrange for the purchase of lot 26 in block 40 at \$600 for the purpose of opening an end of by street.

No Lights This Fall
In answer to a query from Alderman Hunkin the chairman of the fire and light committee stated that no more light bulbs will be added to the city for this fall. Alderman Richards pointed out that until the new electrical machinery is installed the power plant cannot supply any more street lights. The fire department being now operating at 25 per cent overhead to meet the demand, Alderman Hunkin thought, however, that these new lines and lamps should be made ready for use when the new machinery is ready for operation.

"That is what is a mistake in this city," said many more are lamps in the city except where actually necessary was a point raised by Alderman Richards. He referred to the new system of lighting which is being adopted in Edmonton and which will in a short supply the system in this city of the Edmonton municipality.

In the meantime, however, we cannot be in a hurry, and the matter should easily be talked over with the

Galder reported that they thought it in the best interests of the city to accept the offer of the Canadian Investment company for an exchange of the present Allen Park for another park site nearer the southern city limits. Laid on the table.

Upon recommendation of Alderman Richards the extension of electric light line was authorized from the Galder bridge into Richmond Park at an estimated cost of \$250.

For the special committee appointed last week Alderman Hunkin moved that the city take an action for the purpose of property along main street south with a view of widening this street in accord with the offer of the Canadian Investment company last week. This report was adopted upon it being explained that the cost would be too great for the city.

The exchange of land sites through block 40 in order to remedy a defect in surveying was advised by the public works committee.

Alderman Hunkin reported the discovery of a lost child gravel bar in the river opposite River, lot 18 upon which his department had secured a permit to remove gravel. He moved that fences be secured for loading on this gravel and placing in piles before winter sets in. This was carried.

New steps will be built on First street west leading down the hill to Waterdale to replace the old ones placed there in 1907. The motion of Alderman Richards in this effect included a suggestion that stairs be placed on Main street to give better entrance to Riverside Park, carried.

The question of opening University street west from Whyte to University avenue was referred to the public works committee for a report.

Waterworks Superintendent declared sewer pipe is not being laid properly. Paving company offers council free trip to Winnipeg. Many petitions.

Strathcona, Oct. 18.—Hopes that the signing of a new agreement between the city and the Manley Construction company, regarding the contract field by the company for the extension of sewer and water lines this season, would prevent any more troubles arising out of the transaction were shattered at last night's council session when Waterworks Superintendent Turner made a strong protest against the manner in which sewer pipe is being laid on certain portions of the work now under construction in the main parts of town. Mr. Turner charged that this work was being carried on in a very slipshod fashion by one employee of the company and he refused to stand responsible for any defects that might appear in the system during years to come. Mr. Turner took the opportunity while speaking to the council to point out that the attitude of the company to point out that the attitude of the city officials for easy marks. When questioned closely by Alderman Richards the superintendent explained that the employee of the company-laying line on certain extensions he considered entirely incompetent. He claimed that some of the lines are laid in before inspection is made by the city official in charge. As it transpired none of the members of the council were present and Mr. Turner was unsupported in his charges. Engineer McLean stated that he had been assured by the city's inspector on the work in question that everything was satisfactory. However, this inspector was not present to answer the charges of Mr. Turner.

Alderman Richards and Galder were taking prompt action upon the complaints. The latter was in favor of digging up portions of the piping covered and see if proper construction had been made. "It strikes me that the council have been made a fool of in this whole business," said Alderman Richards. "If the Manley company are doing faulty work they should be made to pay for it. I was in favor of taking over this contract some time ago. We will probably have a lawsuit over it if we don't see to it now. There is something wrong somewhere if these people are allowed to do poor work. There's too much at stake to allow any one to take to be made at this time. The lives of residents may be endangered in years to come if these people are not put in according to requirements." Mr. Turner admitted that the Mill Creek work is now quite satisfactory. The mayor said it was the first indication that he had received of faulty work and he would like to see the matter discussed in committee before any hasty action was taken. It was agreed that the trouble should be taken up Wednesday morning, this employee under criticism being ordered to the

Waterworks Superintendent declared sewer pipe is not being laid properly. Paving company offers council free trip to Winnipeg. Many petitions.

It was variety night at the council and a multitude of matters were much discussed. Only a question appeared to transcend the business, those present being Mayor Davies, Alderman Richards, Hunkin, Loughlin and Galder. In contrast to the empty abeyance of the speaker's chairs were all filled, the audience being the largest for some session.

In the correspondence, council was urged to send a representative to the convention of Alberta Municipalities at Medicine Hat October 26 and 27. Letter was sent.

Want a Sidewalk.

Two petitions for four-foot public walks were referred to the public works committee. A request for an extension of the electric light system to Thirteenth avenue south on Fifth street east, was turned over to the fire light committee.

Item A. G. Butterfield asked for the closing of the old road across the river opposite River, lot 18 upon which his department had secured a permit to remove gravel. He moved that fences be secured for loading on this gravel and placing in piles before winter sets in. This was carried.

New steps will be built on First street west leading down the hill to Waterdale to replace the old ones placed there in 1907. The motion of Alderman Richards in this effect included a suggestion that stairs be placed on Main street to give better entrance to Riverside Park, carried.

The question of opening University street west from Whyte to University avenue was referred to the public works committee for a report.

A report from the medical health officer stated that eight cases of measles and one of diphtheria were at present in the city.

Upon report from the mayor it was decided that the Warship and the public works committee be empowered to arrange for the purchase of lot 26 in block 40 at \$600 for the purpose of opening an end of by street.

No Lights This Fall
In answer to a query from Alderman Hunkin the chairman of the fire and light committee stated that no more light bulbs will be added to the city for this fall. Alderman Richards pointed out that until the new electrical machinery is installed the power plant cannot supply any more street lights. The fire department being now operating at 25 per cent overhead to meet the demand, Alderman Hunkin thought, however, that these new lines and lamps should be made ready for use when the new machinery is ready for operation.

"That is what is a mistake in this city," said many more are lamps in the city except where actually necessary was a point raised by Alderman Richards. He referred to the new system of lighting which is being adopted in Edmonton and which will in a short supply the system in this city of the Edmonton municipality.

In the meantime, however, we cannot be in a hurry, and the matter should easily be talked over with the

Galder reported that they thought it in the best interests of the city to accept the offer of the Canadian Investment company for an exchange of the present Allen Park for another park site nearer the southern city limits. Laid on the table.

Upon recommendation of Alderman Richards the extension of electric light line was authorized from the Galder bridge into Richmond Park at an estimated cost of \$250.

For the special committee appointed last week Alderman Hunkin moved that the city take an action for the purpose of property along main street south with a view of widening this street in accord with the offer of the Canadian Investment company last week. This report was adopted upon it being explained that the cost would be too great for the city.

The exchange of land sites through block 40 in order to remedy a defect in surveying was advised by the public works committee.

Alderman Hunkin reported the discovery of a lost child gravel bar in the river opposite River, lot 18 upon which his department had secured a permit to remove gravel. He moved that fences be secured for loading on this gravel and placing in piles before winter sets in. This was carried.

New steps will be built on First street west leading down the hill to Waterdale to replace the old ones placed there in 1907. The motion of Alderman Richards in this effect included a suggestion that stairs be placed on Main street to give better entrance to Riverside Park, carried.

The question of opening University street west from Whyte to University avenue was referred to the public works committee for a report.

ATLANTIC WATERWAYS CONFERENCE
(Union Press Service)
Richmond, Va., Oct. 18.—Several hundred delegates, representing nearly every Atlantic coast state, assembled in Richmond today for the opening of the fourth annual convention of the Atlantic Waterways association. The aim of the gathering which will continue its sessions three days, is to promote the construction of a national enterprise, of a chain of canals connecting natural and protected waterways along the Atlantic coast, thereby forming a continuous inter navigation route from Boston to Key West, President J. Harrison Moore of Philadelphia is presiding over the sessions. Governor Woodrow Wilson of New Jersey is scheduled as the chief speaker.

SPORTS WORLD FRIDAY TO DAY

ATHLETICS TAKE SECOND GAME OF WORLD SERIES

In Gruelling Eleven-Inning Contest Combs Proves Himself the Superior of Mathewson—Thousands of Frenzied Fans Witness Exciting Match—Phillies Annex Two in Eleventh and New York One—Score 3 to 2

New York, Oct. 18.—By the score of 3 to 2, in 11 innings of as sensational a world series as ever furnished, the Philadelphia Athletics defeated the New York Nationals here today, and jumped into a lead of two games to one in the series for the world's championship.

The White Elephant achieved the feat on their rivals' own ground, facing the great Mathewson, who had puzzled them into the loss of one world's series and who had started bravely in an attempt to make history repeat itself. Three times in 1903 and once in this year, Philadelphia had fallen victim to Mathewson's wizardry. Today the team looked through his guard and fell upon him so heavily in the latter part of the tense struggle that the great lexicon and his mates were swept off their feet.

Pitched Great Game.
Backed up by the splendid work of Jack Combs, the "Phreak" "Iron M." who pitched one of the greatest games of his career, and held New York runners from the third inning almost to the game's end, the American leaders followed their way to victory. They tied the score when Baker, their brilliant third-baseman, who was yesterday's game with a homer, fished out one of Mathewson's homers, and drove it to the far reaches of the right field stand for a home run in the ninth.

Three Safe Hits Won.
They won out in the eleventh on three safe hits, helped out by the New York errors.

New York did not give up without a struggle, and a hard one. A double, followed by an error, gave them a run in the last half of the eleventh. There were two out when the run came over and it was Philadelphia's game when, at a moment's notice, the only captain of the bases, was out on an attempt to steal second.

Very Exciting.
No game played here within memory has provided so much excitement. There were nearly 10,000 persons on hand. The National Commission gave out the official attendance figures as 37,216, and timing after timing the throng was brought to its feet by sensational fielding plays, exciting batting rallies, or remarkable feats of the rival pitchers.

Enthusiastic shouts seemed almost every divided.

When New York forced safety in the third, editors were awakening by a big uproar. But when Baker, in the ninth, prevented what had looked like sure defeat for his team, the din was deafening. As he upraised his arm, the Philadelphia fans took their winning lead in the eleventh. New York fans stood loyally by their team up to the point, however, and never gave up hope until Lapps, through to Collins, set Becker for the last out.

Combs Unavailable.
Jack Combs, hero of last year's world's series, earned further laurels

Granite Curling Club Meeting

On Wednesday Night

There will be a meeting of the Granite Curling Club at the rink, on Wednesday evening at 8 o'clock.
Election of officers, and general business. A large attendance is requested.

ANGUS M. SCOTT,
Secretary.

today, by allowing the New Yorkers only three hits. Two of these came in the third inning, resulting in a run, and then Combs was invaluable until the eleventh, when Herzog sent a rattling double to the left field fence. In seven innings, the home team went out in order. Combs struck out seven men, Snodgrass fanning twice, Herzog, Devore, Doris, Meyers and Mathewson once.

Mathewson's McGraw pinned his hope today on Mathewson, and until the fatal ninth clearly held his opponents' runless, letting them down with two hits. He was favored by the "streaks" of the game, which enabled him to pull out of holes in the third and fifth innings. In the third inning with Barry anchored on second, after a single and steal, Mathewson shot a liner directly into Doyle's hands, and Barry was caught at second. In the fifth, with Murphy on first, Davis singled, the ball striking ungly Combs on the leg. Unchecked the ball would have come to center field, and Murphy would have had third at least.

Mattie Failing.
Mathewson's broken record when Baker snatched his home run drove him to the ninth, being the score. He seemed to be losing without difficulty, but the Philadelphia players missed their heavy artillery in the eleventh, and before the commencing was over two men had scored. In the ninth, against the New York pitcher retired Philadelphia in order. Three struck out. Orling, who hit Mathewson with two doubles last Saturday, fanned twice and was out.

Left on Bases.
Philadelphia had six men left on bases and New York only one. Only three New Yorkers reached second base and two of these scored.

Jack Barry was the particularly bright feature today. He most brilliant fielding play came in the eighth, after Fletcher homered, hard hitting grounder through the box. Barry came up with lightning speed, scooped the ball after it had taken a wicked bound, and snapped to Davis ahead of the flying Fletcher. Captain Larry Doyle at second base, accepted ten chances without an error, while Collins was also busy about second for Philadelphia, having eleven chances, and falling down on two. His fumble of Becker's grounder in the eleventh was responsible for New York's second run.

No Base Stealing.
The much vaunted speed of New York on bases was not in evidence. Catcher Lapp turning back five runners who attempted to steal, while Meyers was able to check only one of the visitor's three attempts.

The unpleasant feature of the game was the spitting of Frank Baker by Snodgrass in the tenth inning in an attempt to steal third. Lapp made a perfect throw to Baker who was waiting for Snodgrass with the ball. New York's center fielder came into the box, the spikes shot into Baker's area. Philadelphia players evidently believed that the spiking was intentional, for "Poppy" Hartest, berated Snodgrass bitterly, and as the latter walked to the bench he was hissed. Snodgrass said it was unintentional, and that Baker had blocked him.

Play Starts.
Play was made 2 o'clock with umpire Deanna behind the plate and Combs in the field. Lard, after four fouls, hit one that was picked up by Doyle for fast pitch, which retired the batter. Fletcher picked up Combs' line and retired him by a clean throw. Collins hit to Merkle, who tossed to Matty for the third out. For New York's Devore struck out. Doyle went out on an easy grounder by Davis, and Snodgrass was the victim of strikes. Baker, who started the second inning, went out on a line shot and throw of his grounder by Doyle. Herzog pulled down Murphy's sliding time. Davis ended the inning with a high fly to Snodgrass.

Murray for New York fished high in Lard. Merkle's grounder was handled speedily. Barry to Davis, and Herzog struck out.

Barry opened the third for Philadelphia by sending the ball to left for a single, the first hit of the game and made a clean catch of second. Lapp lined out that Doyle pulled down and tossed to Fletcher, completing the first double play of the series. Combs ended the inning with a fly to Doyle. For New York Fletcher hit to Murphy, but Myers shot one that bounded off Baker's feet for a single. Matty sent one to right for a base, putting Meyers on third. Then Devore hit a hot one to short, that slipped away

from Barry long enough to permit Meyers to score, although Matty was caught at second. Devore was out stealing, Lapp throwing to Barry.

Hit the Umpire.
Doyle was the first out for New York, Collins to Davis. Lord caught Snodgrass' fly and Murphy's high one was easy for Murphy. Herzog let Murphy's drive get in the fifth and the latter was safe. Barry drove hit umpire Connolly and went as a safety. Barry sacrificed the runners along by a hint to Mathewson. Mathewson threw Lapp's cast top home heading off Murphy, who was run down. Combs died to Fletcher. In New York's half, Merkle died to Lord, Combs walked Herzog, who was caught trying to steal second. Fletcher went out, Barry to Davis.

In Philadelphia's sixth, Lord's line drive went into center field, Orling fanned and Collins died to Snodgrass.

OTIS CHAMBERLAIN of the New York Giants.

BIG PROGRAMME AT "Y" TONIGHT

RELAY RACES AND BASKETBALL WILL BE AMONG THE FEATURES—KEYSTONES VS. DOMINION

If everything is carried out according to schedule there will be things to do this afternoon and tonight in the Y. M. C. A. gymnasium. Relay races and basketball are the chief features. This afternoon a basketball game in the public school house is scheduled. The team of the Y. M. C. A. and the team of the Y. M. C. A. will be pitted against each other in a struggle to the bitter end and while the game is in progress a public school relay race will be going on on the track above the gymnasium floor. The relay teams will be captained by Fife and Simmonson respectively.

In the evening two games of basketball will be played. During the early part of the evening the Keystone team and the Avery team will have the floor, and after their game is through the Spiking team and the Avery team will have the floor in the second half of the double-header.

4 base on error, Philadelphia 2, New York 1; struck out by Combs 7, Mathewson 3; time 2:17; umpire, at plate, Brennan, on base, Connolly, left field, Kight, right field, Amers.

BOWLING SEASON WILL OPEN SOON

MORE TEAMS THIS YEAR THAN LAST—MORE TROPHIES OFFERED ALSO

A meeting of bowling enthusiasts among the members of the Y. M. C. A. will be held some time before the end of the week for the purpose of organizing a league for the coming winter. Already a number of names have been placed in the hands of Secretary Ward and from present indications there will be sufficient bowlers among the "Y" members to organize a complete sixteen league with some to spare. Already it is expected that there will be fifty men bowling regularly in the league this winter.

STALE ATHLETES ARE NOW BARRED

New York, Oct. 18.—Few followers of amateur athletics who would have as difficulty in making the Olympic team to present this country will not be allowed to compete because they are not American citizens. According to the Olympic rules, only athletes who are naturalized or born citizens of the country they wish to compete for.

Because of this rule, Dan Abner, Tim Abner and Gus Walsh are ineligible for the Olympic team. This is a case of Olympic rule making in their specialties in next year's classic. The American brothers were the colors of John and Gus Walsh struggled in behalf of Canada at the last Olympic games, which were held in London in 1908.

Dan Abner, who competes in all-around, is the American runner, long jump and jump champion and "rod leader. Time wears the colors of the New York A. C. The latter is the senior champion runner, broad and hop step and jump champion of the Metropolitan association.

INDIAN WRESTLER AFTER MARMONT

Chicago, Oct. 18.—B. B. Benjamin, manager of Karl, the British Indian wrestler, has issued a statement that his man would meet Yoniss Mahmoud or Zhyzsko for a side wager in private or for a public match anywhere in the country. The manager says he is anxious to work Karl up to a match with Gotti, but wants to send the Indian against Mahmoud or Zhyzsko, and if he is beaten he will go back to India at once. As Mahmoud is now with Frank Gotti in the latter's world tour there is small chance for Karl setting a match with him.

EXPERIMENT WILL MEAN TROUBLE

DECISION OF N. H. A. TO CHANGE HOCKEY RULES IS MUCH DISCUSSED

Ottawa, Oct. 17.—There is a difference of opinion among hockey stars as to the outcome of the action of the N. H. A. practically deciding to N. H. A. in practically deciding to change the rules is a matter of the Ottawa center forward, says that N. H. A. would kill the game by reducing the number of players on the team. He contends that the abolition of the fourth man on the forward line would make the play race and make commotion impossible, leading to encourage individualism only. Percy Lessner, captain of the local team, maintains, however, that the reduction of the teams will make the game faster and far more interesting, and that it will tend to make play far clearer, inasmuch as a really tight game by reducing the number of players on the team. He contends that it proves unsatisfactory the league will return to the former system with four forwards.

TWO TEAMS IN COAST LEAGUE

Plan Was to Have Four-Team Circuit with Edmonton and Calgary Included, But Scheme Falls Through

Western Rinks Are Nearing Completion

Vancouver, Oct. 18.—The new coast Hockey league will be composed of only two teams during the coming season, representing Vancouver and Victoria. The Patrick brothers who are behind the project, have been so busy looking after the building of the rinks both here and in Victoria, that they did not have time to go ahead with the organization of the companies to build the rinks in Calgary and Edmonton, and these cities will not be seen in the league this winter, though it is expected that the following season will find them both members of the league.

Had Calgary and Edmonton hockey fans enthused over the four-club league project, the circuit would have been complete this winter. The Patrick brothers offered to take 25 per cent of the stock in each of these cities if local enthusiasts purchased the remainder, but there was nobody eager to go ahead with the scheme in either place. Had either Lethbridge or Frank

Patrick not been tied up with the rinks on the coast they would have attended to the promotion themselves, but they had no time for this, however. There does seem to be any reason to fear that the two-club league will not be a success, particularly after the success of the two-club league, providing the quality of the sport provided is right.

The new rinks here and in Victoria are rapidly nearing completion, and there does not seem to be any reason to fear that they will not be ready by November 15, the time expected. The Vancouver rink is a much larger one than the rink in Victoria and will be the finest rink in the Dominion without exception. The skating surface will not be greater than in any other rink in Canada, but the seating accommodation will also be large.

The rink in Victoria is a much smaller one, but it is expected that it will be ready by November 15, the time expected.

The rink in Victoria is a much smaller one, but it is expected that it will be ready by November 15, the time expected.

PROGRESSIVES IN CONFERENCE
(Union Press Service)

Chicago, Ill., Oct. 18.—The progressives in the Republican conference in Chicago today promised to be the big event of the week in the world of politics. Already a number of the progressive leaders have arrived in town and by tomorrow morning it is expected that there will be a great throng of Republicans from all sections ready to join in the movement to defeat President Taft for re-nomination. A number of governors, senators and representatives are scheduled to participate. The extensive purpose of the conference is to give the extent of the progressive movement and to lay plans for the future of the organization, but as virtually all of the active spirits in the round-up of the La Follette it is surmised that the real object of the gathering is to give an impetus for the boom of the Wisconsin senator for the Republican presidential nomination.

The National Republican committee, at its meeting in Washington in December, probably will decide who shall direct the campaign next year, though the definite choice of a name will not be announced until the nominating convention is held.

GLAD WOMEN MEET IN CLEVELAND
(Union Press Service)

Cleveland, O., Oct. 18.—The streets of Cleveland were crowded today with visiting club women from all parts of Ohio, and the arrival of each train added to the number already in the city. This great gathering of women, of whom nearly a thousand are expected as delegates to the convention, is for the sixteenth annual convention of the Ohio Federation of Women's Clubs. Following a reception at the Godeaux club tonight the convention will have its formal opening tomorrow morning in the assembly room of the Netherland Hotel. Three days will be spent in the discussion of a wide range of subjects of general interest, such as conservation, home economics, industry and social conditions affecting women and children, library extension, art education and a loan scholarship fund. Interesting the business sessions will be a number of features of entertainment. Mrs. Addison F. Brownhill, of Troy, will preside over the sessions.

Five states, North Dakota, Wisconsin, Nebraska, Oregon and New Jersey, will by law choose delegates to the national convention next year by direct vote.

This Food-Tonic Quickly Restores Strength

After a sleep of Pneumonia, Diphtheria, Typhoid or any other prostrating disease, there is usually a need for some other source of strength besides ordinary food.

NA-DRU-CO Tasteless Cod Liver Oil Compound

meets this need perfectly. Well delicately pleasant to taste, without a trace of the nauseating properties of plain cod liver oil, it embodies the well known nutritive and healthful elements that have made cod liver oil famous. To these have been added Hypophosphites to build up the nerves—Extract of Malt to carry the oil to the lungs and bronchial tubes—and a host of other valuable ingredients containing valuable nutritive itself, helps the weakened digestive organs to assimilate other foods.

For run-down children there is no better "builder-up."

Get a 50c. or \$1.00 bottle from your druggist.

WHEN KNIGHTHOOD WAS IN FLOWER.

An elaborate reveal of that fine old drama, "When Knighthood Was in Flower," will visit this city on October 20, and 21, playing at the Theatre. Bert Russell, the local manager, is confident that a longer stay, this time, will be met with approval. As the noble knight who is after the American girl's heart and hand, Russell's "Orsini" at his best, and his perfect self-possession under the most trying circumstances is delicious. Russell has given his star a company of twenty players who are in keeping with both the star and the production.

part says that they are not pictures, "but that the girl herself lived before us." The Coronation pictures were taken by this Union-South process, by the Royal Court Show at Richmond. The latest exhibition of these remarkable pictures will be given at the Theatre on Monday, October 23rd.

While, of course, the Coronation is the great event which the kinematograph pictures illustrate, there are others. The program in fact is as follows: The Royal Court Show at Richmond. London Street scenes under normal conditions, so that the spectator can see what had afterwards been done in the way of decorations; the Royal North West Mounted Police, reviewed at Montreal; the Canadian Procession, at Westminster Abbey; news and pictures leaving Glasgow for Westminster. The Coronation Procession, royal progress through London. The vessel, then, at the theatre for the famous review, the procession along the Mall, the procession from York Gate, General showing His Majesty receiving the City Guard from the Lord Mayor at the Royal Exchange. There are the remarkable pictures which so much was written during the engagement in Montreal. Bird and Animal studies, a trip on Lake Garda, the latter giving one the advantage of a trip in the Mediterranean district with all the beautiful effects of sky and water, just as though one were actually there. Those who have seen the real thing and the kinematograph productions say that it is certainly wonderful. During the engagement there will be an entire change of program.

TURBINE READY IN SIX WEEKS

NEW "JUICE" PRODUCER IS NOW BEING ERRECTED AT CITY POWER PLANT

According to Superintendent Huleman the new steam turbine will be ready for use in about six weeks time. Work has been commenced on the chimney of the station, which will be used to provide cooling water for the new turbine.

Immediate steps are to be taken for the acquisition of the property in the east end of the city, which is required to give a suitable grade to the east end bridge. This morning Solicitor Brown was authorized to take the matter up with a Mr. McLeod, the owner of a large portion of the property, with a view to securing a transfer at an early date. Grading of the new road will be carried out by the engineer's department, who will provide a six per cent. approach to the bridge. Property fronting on the road will afterwards be re-subdivided and sold.

FINISH PAVING CONTRACT SHORTLY

BITHULITE COMPANY IS MAKING GOOD PROGRESS ON WORK IN STRATHONA.

Strathona, Oct. 18.—If the clerk of the weather so disposes, this month should see the city's paving program cleared away almost to the last man. During the last three weeks the Bithulite outfit has been making fairly good progress on the work and will soon have White avenue completely improved from Fifth street east to Fifth street west. Another two or three days at the latest should find the finishing coat of Bithulite rolled down on White west and before the close of the week the entire road should all be in place in the east end.

If, as in many previous years, the weather sets in cold at the beginning of November, it will be a close race between the paving gangs and frost before the year's contract is wound up in the city. After the completion of White avenue there still remain two blocks of pavement to place on Main street south. From the elvies officials the Bithulite and Constellation company have had every consideration this fall on the work. This assistance has caused the citizens to little inconvenience, where the ear service is concerned but it is apparent that without this help, the company would scarcely have completed the work before the advent of winter. For some weeks the radial railway was not operated on the Second street as by this method the pavers were permitted to carry on their work along both sides of White avenue at one time for three blocks west. For the past week the tie-up of traffic has been somewhat more serious, the stop being made at Fifth street east. True, one car, number 29, travelling to and from White avenue as usually as the run can be made but it is found by travellers to and from Edmonton that the connections between the cars are none too good and pedestrianism is a consequence much to be avoided. The road service was cut away on White. However, one car track was last week planted in cement and when this is firmly set, which should be in a very few days, through service will again be in force on the line.

CAUSES SICKNESS

Good Food impossible with a Disordered Stomach

There is nothing that will create sickness or cause more trouble than a disordered stomach, and many people daily contract serious maladies simply through disregard or abuse of the stomach.

Are you every one suffering from any stomach derangement, indigestion, or dyspepsia, whether acute or chronic, to try Royal Bypaspa Tablets with the distinct understanding that you will refund their money without question or formality, if after reasonable use of this medicine they are not satisfied with the results. We recommend them to our customers every day, and have not to hear of any one who has not been benefited by them. Three sizes, 50c, 1.00, and \$1.00 a box. Sold in Edmonton only at our store—The Ideal Store, A. Archibald.
